General Terms and Conditions for Materials Supply

T&Cs for 3+3 KVA UPS AMC (Master + Slave) with 8 Battery

1. Quarterly Uptime must be at least 98% over whole installed base of UPS. For balance 2% call need to close within 3 days from date of call logging.
2. Weekly dashboard of calls logged / closed and Open calls to be shared every Friday with GVR.
3. eRACTS data will be shared by GVR Team twice in a day.
4. TIMELINES FOR SERVICES DURING CAMC PERIOD: -

During the CAMC & Warranty period, vendor is responsible for rectification of any breakdown or defect observed in the entire solution and shall rectify the same from the time of call

logging within following timelines (including weekends & all Holidays) without any cost to IOCL.

Ø For ROs within Municipal City limits of Divisional Office Head Quarter 8 hrs.

Ø For ROs beyond Municipal City limits but within 100 km of the Divisional Office Head Quarter 24 hrs.

Ø For balance ROs 36 hrs.

Ø For ROs of States J&K, North East, Uttarakhand and Himachal Pradesh: Within municipality limits of Divisional Office HQ Town # 24 hrs for balance ROs - 72 hrs.

a) Vendor is required to position adequate no. of technically qualified personnel with sufficient spare parts to maintain desired uptime for the entire Retail Automation System solution being provided at these ROs.

b) In case, the vendor fails to attend and rectify the complaint within the above specified time limits, IOCL may get it attended through alternative agency at vendors risk and cost.

c) However, the vendor shall continue to be responsible for maintaining the entire solution even after attending of the complaint through any alternative agency by IOCL.

d) Penalty during CAMC period for the delay in resolving the complaint is as follows:

a. For automation equipment breakdown due to which fuel dispensing through automation is affected, Penalty @ #. 1000/- per hour per RO shall be levied, in case breakdown is not attended and complaint not closed within allowable free time.

b. For other automation equipment breakdown, Penalty @ #. 100/- per hour per RO shall be levied, in case breakdown is not attended and complaint not closed within allowable free time.

c. Penalty shall be levied from the start of equipment down time complaint logging, in case equipment is not repaired as per timeline given for repair of the same.

e) Monthly penalty data from eRACTS for UPS will be shared with AVO on first week of every month by GVR.

f) Based on the communication failure of various equipment, the RO Automation system shall generate

g) equipment-wise downtime report on its own, which should also be replicated to IOCL Server for generation of downtime report from a central location (CMS).

h) This report shall be submitted along with quarterly CAMC invoices. For such downtime calculated report, exclusion of delays on account of IOCL deliverables, which shall be certified by concerned DO Engineer/Field Officer of the RO needs to be taken into account. Suitable penalty calculated as per the above will be deducted from the CAMC bills.

i) The Retail Automation System shall be able to log complaints automatically on IOCL
a. server/automation call centre.

j) Vendors must also have their own complaint tracking system. Vendors shall develop protocol to
a. access the IOCL server through web services, without additional cost to IOCL.

k) Allocation of service engineers and closure of complaint should be done through vendors# servers,
a. which in turn will close call in IOCL server.

l) For the purpose of calculation of downtime, all calls logged after 20:00 hrs, down time counting shall
start from 08:00 hrs of next morning.

m) Complaint logging system to be stabilized within one month of commencement of 1st lot CAMC. The system will be used to evaluate the performance of the complaint logging system. During that period calculation of penalty shall not be done through system generated reports. However, penalty shall be levied for delay in attending to the complaints logged by dealer/field officer/DO/SO/HO in eRACTS as the case may be.

n) Similarly, Automation Control Centre shall be stabilized within one month of commencement of 1st lot CAMC. The Automation Control Centre consists of 20% of the CAMC charges i.e. if cost of CAMC and ACC is 100% then 80% shall be CAMC charges and 20% shall be ACC charges. In the event of non-operation of the ACC, 20% amount from the CAMC charges shall be deducted. Vendor shall submit the report on the resolution of complaints on daily and weekly basis to the respective DO/SO and monthly summary report on 1st day of the next month. Operation of ACC & complaint redressal for the complaint received by it from CMS server will be taken as ACC is functional. No deduction will be made from vendor on compliance of above condition.

o) Maximum deductible amount for any RO is restricted up to the base amount of CAMC charges (excluding taxes) payable for that particular quarter for the concerned RO. Such price adjustment applicable in-line with the above shall be done by the vendor in the Tax Invoice itself and only then the invoice is to be submitted to IOCL as per payment terms.

p) If the deduction amount against downtime, as mentioned above, equals quarterly CAMC amount for any RO in any two consecutive quarters during CAMC period, in such cases, in addition to deduction against CAMC amount, prevailing SDBG for CAMC for the call up order quantity shall be partially invoked. Encashment of SDBG will be done for the amount equal to CAMC SD amount for 7 years for the concerned RO. This amount will be forfeited and will not be returned to the vendor.

q) Notwithstanding anything contrary contained in the post work order Agreement, during CAMC, the Corporation shall always have the right to terminate this Agreement by giving to the Contractor 60 day#s written notice in this regard.

r) Upon such termination, the Company shall only be required to pay the Contractor a maximum amount, equivalent to the balance outstanding CAMC Price and/or return the BG deposited with IOCL, as proved by the Contractor to be due and payable by the Corporation to the Contractor after adjustment of any amounts that may be due by the Contractor to the Corporation.

s) For avoidance of doubt, it is clarified that in such circumstances, no other sum of money whatsoever shall be payable or paid by the Corporation to the Contractor and correspondingly the Contractor shall have no claim whatsoever against the Corporation. Moreover, in case of such delay in services as per the terms of the tender and/or non adherence to the terms and conditions of CAMC and/or suspending, aborting the services within CAMC period, necessary actions as per the contractual provision as deemed fit shall be taken by IOCL including Holiday listing of the vendor.

t) CAMC can be extended on completion of 2 years CAMC by the concerned State Office/Divisional Office at the rates mutually agreed between vendor and State Office/Divisional Office.
u) To ensure best performance of the system as a whole & each individual equipment/Instrument in terms of performance parameters like accuracy, repeatability, reliability, sustenance of communication etc. & ensure Zero down time of any individual equipment/instrument or the system as a whole during project, commissioning, trial run, SAT, stabilization period & CAMC period, the onus of selecting Best quality of equipments out of recommended makes or any other make meeting minimum required technical specification, lies with the Vendor.

v) Penalty will be levied in case the analytics vendor fails to provide timely "leads/alerts" and deviation get surfaces at a later date or comes to knowledge of IOCL/Govt./Statutory authorities is defined in clause no. 16.8.1. (Detail clause below)

Clause no. 16.8.1. In case timely data analytics is not provided (as per the scope of analytics) and deviation get surface at a later date or comes to knowledge of IOCL/Govt./Statutory authorities, the vendor will be responsible for the consequences. In first instance, in case deviation is not major that has wide consequences on the corporation brand image, payment for a quarter will not be paid. In the second instance of similar nature vendor has to pay to IOCL amount equivalent three quarters in the form of demand draft or electronic transfer within 15 days of intimation by IOCL in writing. However, in case deviation continue unabated the third instance will lead to automatic cancellation of Work Order/penal action including blacklist. IOCL at its own discretion can initiate penal action along with cancellation of work order even in first instance of deviation, keeping in view the nature of deviation or on recommendation of Govt./Statutory authorities.

4. Preventive Maintenance must be done twice in a year for all UPS under AMC with a gap of 5-6 months in between two preventive maintenance.

5. This CAMC covers cost of all spares need to repair in UPS system, specifically Power card, Control card, Inverter card, Transformer etc. there will not be any extra cost for replacement & repair.

6. SPD & battery is not cover; calls related to SPD & batteries will be attended (Included in CAMC).
If replacement is require then GVR will place PO for Batteries & SPD.

7. Payment terms # Monthly, Invoice will be submitted after end of month. Credit period will be 75 days from date of invoice.

8. TAX: 18 % GST Extra applicable OR any other government duties if applicable would be charged extra as applicable.

9. The contract can be terminated by giving 60 days# notice from both sides.

10. FORCE MAJFURE :- The term "FORCE MAJFURE" as employed in all communications shall mean declared wars or revolutions, civil wars, tidal waves, major floods, earthquakes, epidemics, quarantine restrictions and freight embargoes and transporters strikes affecting India as a whole only.

Special Condition - All CAMC conditions will be 100% complied & back to back to IOCL Tender ref. # HCC/Automm-02/PT-172/2017-18 & # HCC/Automm-02/PT-121/2016-17 and related pre-bid clarifications. Any deviation will not be acceptable.

General Terms and Conditions for Materials Supply

Each Supplier must read, understand and comply with the following conditions while supplying goods.

1. Supplier should submit all required reports as mentioned in purchase order along with each lot. And the boxes or packing which has the report to be test Identified separately. ORPAK is authorized to reject the part if any one of the reports found missing.
2. Supplier is expected to give containment actions to ORPAK within 24 hrs from the receipt of complaint either in the form of mail or oral information.
3. If Containment action initiated by ORPAK (sorting/rework) based on (supplier request or to support Production plan avoid line stoppage) cost incurred will be debited on supplier account.
4. Supplier is expected to communicate the contained lot information well in advance. Box /package of Contained lot to be identified with separate label/instruction and communicate to ORPAK on lot details prior to despatch.
5. Corrective/Preventive actions to be shared with ORPAK in the prescribed format within 7 working from the date of SCAR receipt.
6. If preventive actions are not received within 7 days as mentioned above all further lot from supplier above all further lot from supplier
7. If no communication received from supplier on disposition action for the rejection Qty/lot at ORPAK within 7 working days, ORPAK will send back the Rejection Qty and recover the cost.
8. If transportation under scope of suppliers, part quality issues which affects fit, functional due to (damage/rust/contamination/exposure to water/dust) due to transportation should be addressed by supplier as per the above point no.#3 and #5.
9. All CTQ parameters not meeting Process capability ($Cpk < 1.33$) 100% inspection to be carried out with action plan to improve process capability.
10. For any new development ORPAK PFR (process feasibility report) to be completed by supplier and obtain approval from ORPAK prior to ISIR samples Production .
11. As part of ISIR sample submission i) Inspection report ii) material test certificate iii) If applicable reports as per specified engg standards as per drawing. iv) Process flow chart v) proto/prelaunch control plan.
12. Supplier should submit PPAP for ORPAK approval with Level 3 as per AIAG -4th edition manual during following conditions. PPAP lot to be identified separately And notified to with lot details prior to despatch. a. New part development b. Mass production to be started after obtaining approval from a ORPAK (Interim Approval/PSW sign off) c. Any modification or change in process.
13. Kindly ensure that the Original and DFT copy of invoices and Delivery Challan / Packing list are sent along with the consignment.
14. If any queries/clarifications on the above terms and conditions, pl feel free to contact ORPAK SQE/Sourcing/Planning team.
